Jared and Rach both shoot.	6900

Things you should know: Jared or Rach shoot the single shooter packages. You may also get the other one as a second shooter if you add that option, but you may not (but our other 2nd shooters are baller). We don't have a contract that you have to sign, but there's a list of terms that you have to agree with in order to get our bank details and pay the deposit. You should also read the "How to hack your wedding photographer" article on our website. "Editing" to us means colour corrections and minor fixes, not liquifying you to look like someone you are not or swapping heads or bodies. But people naturally look awesome on their wedding days!
